EnglewoodBeachResorts.com and Vacation Club Timesharing

The concept of timeshare has developed over 30+ years to its present form.

A recent survey of timeshare owners reports that:

- 1) 81.1 percent are very satisfied or satisfied with their timeshare purchase.
- 2) 74.6 percent say that their expectations of resort timesharing have been matched or exceeded.
- 3) 73.1 percent agree that since owning their timeshare, they have enjoyed their vacations more.
- 4) 98.7 percent say that the certainty of quality accommodations were important to them.
- 5) 97.7 percent say that resort timeshare is a good value for the money.

OWNERSHIP - Reasons that timesharing can be a good decision for vacationers

- 1) The reduced cost of owning vs. renting. Typical payback is within 5-6 years.
- 2) The guarantee that the unit is available to you at the same time each year, eliminating the need to make reservations. No chance of getting shut out.
- 3) Friendships created through meeting people on a yearly basis. There are over three million families who are the owners of timeshares all over the world.
- 4) The ability to trade or "bank" your unit.

Resort Condominiums International (RCI) 1800 338-7777 or www.RCI.com

Interval International (I. I.) 1 800 828-8200 or www.Intervalworld.com.

RCI and II. are companies specializing in the exchange of timeshare units between timeshare owners from all over the USA and the world. As an owner at Sea Oats Beach Club or Englewood Beach and Yacht Club, you may decide to trade or bank your unit and travel to exotic places like Hawaii or Europe or Asia. The cost is based on a yearly membership fee and an additional transfer fee for each trade you make. The membership fee gets you a travel book with over 3000 resorts to choose from. Whether you want to golf, ski, surf or just getaway to an exotic locale, I.I. and RCI. will have a place just for you.
